STUDENT PROFILE

First-year MEng Computer Science (Artificial Intelligence) student at the University of Southampton. Passionate about leveraging AI-assisted development workflows to build efficient, scalable software solutions. Experienced in researching complex technical requirements, refactoring AI-assisted code for production-level quality, and collaborating within teams to deliver high-quality digital outputs.

TECHNICAL & PROFESSIONAL SKILLS

- **Software Development:** Proficient in **Java, Python, and C**; experienced in architectural design, debugging, and integrating AI-assisted code into robust applications.
- **Systems & Data Management:** Strong foundational knowledge of **SQL** for relational databases and **Unix/Linux** command-line environments.
- **Web Architecture & Design:** Expert in **Figma** and **Wix** for UI/UX design. **Portfolio:** Visit my digital studio to view live web projects and design case studies.
- **AI & Machine Learning:** Practical exposure to Machine Learning workflows including **TensorFlow, Keras**, and data dimensionality reduction using **PCA**.
- **Operations & Leadership:** Proven ability to lead technical committees and manage complex project lifecycles.
- **Communication:** Advanced technical communication; **IELTS 7.5**, Hindi, and French.

PROFESSIONAL EXPERIENCE

Web Developer & Designer (Freelance) **August 2024 – Present**

- Delivered two custom web development projects, managing the end-to-end design and deployment process to meet specific client requirements.

Subway **October 2025 – December 2025**
Fast Food Team Member Southampton, UK

- Provided efficient service in a high-volume environment while maintaining strict hygiene and safety standards.

Beity Lebanese Restaurant **March 2025 – May 2025**
Runner & Waiter Southampton, UK

- Collaborated with front-of-house teams to ensure high standards of service and operational efficiency.

LetUsBloom **August 2024 – March 2025**
Head of Technology Remote

- Managed organization website architecture, ensuring usability and structural integrity across digital initiatives.

VOLUNTEERING & PROJECTS

Java Training School Simulation **2025**

- Developed a comprehensive school management simulation focusing on complex Object-Oriented Design (OOD) principles.
- Implemented robust File Serialization to manage and persist student/staff data, ensuring data integrity across sessions.

JavaFX Noughts & Crosses **2025**

- Engineered a fully functional GUI-based game using the Model-View-Controller (MVC) architectural pattern.

- Utilized JavaFX UI binding to synchronize the game state with the graphical interface, ensuring responsive user interactions.

SOTSEF Science & Engineering Family Day **March 14, 2026**
Technical Volunteer Southampton, UK

- Facilitated technical demonstrations and supervised electronic construction workshops for 5,000 visitors, contributing to a high event satisfaction rating.

EDUCATION

University of Southampton **Sep 2025 – Present**
MEng Computer Science (with Artificial Intelligence)
Average: 61% (On track for 2:1)

- **Core Competencies:** Algorithmics, Data Management (SQL/Relational), Computer Systems, and Networks & Security.
- **Software Development:** Advanced proficiency in Java and Python, developed through intensive study of Programming I & II.
- **Mathematics:** Applied Mathematics I & II, focusing on the logical frameworks underpinning AI and Machine Learning.

ONCAMPUS Southampton **Sep 2024 – May 2025**
University Foundation Programme (UFP): Mathematics (A*), Physics (A*), Skills for Science (A*)
